## WHAT PEOPLE SAY

**Malcolm**

Good study material for the test. I appeared today for my C2010-501 exam and passed. I would not have passed the C2010-501 exam without it. Thanks.

**Ward**

Who needs the latest file? I can send you at 70% discount. I pass the C2090-614.

**Arlene**

Good test. I pass the exam. thanks. Someone who wants the PDF file can email me.

**Exam** : **C\_IBP\_2205**

**Title** : SAP Certified Application  
Associate - SAP IBP for Supply  
Chain (2205)

**Vendor** : SAP

**Version** : DEMO

**NO.1** Which of the following are inputs to Demand Sensing with Gradient Boosting (Full) algorithm? Note: There are 2 correct answers to this question.

- A. Recommended Safety Stocks from Multistage Inventory Optimization
- B. Future Consensus Forecasts and Lagged Forecast Snapshots
- C. Forecast Error CV Calculated by Manage Forecast Error Calculations app
- D. Sales Order Quantities (both historical and future open orders)

**Answer:** A,B

**NO.2** You are implementing SAP IBP to plan for a supply chain that experiences high seasonality. What supply planning operators can be used in your model to plan stock pre-builds?

- A. Supply optimizer only
- B. Finite and infinite heuristics
- C. Finite heuristics only
- D. Supply optimizer and supply heuristics

**Answer:** D

**NO.3** Safety Stock outputs from Multistage Inventory Optimization are sent to which of these processes? Note:

There are 2 correct answers to this question.

- A. Decoupling Points determination in SAP IBP for demand-driven replenishment
- B. Demand Sensing with Gradient Boosting (Full)
- C. Supply Heuristics in SAP IBP for sales and operations
- D. Charts creation in SAP Supply Chain Control Tower

**Answer:** B,C

**NO.4** You are invited to review a problem with a customer's SAP IBP Excel template performance. What areas with the biggest potential performance impact would you focus on? Note: There are 2 correct answers to this question.

- A. Number of analytics charts displaying key figures' values
- B. Excessive SAP IBP formatting in the Microsoft Excel UI
- C. Complex calculation graphs for key figures
- D. Number of local members and complexity of calculations

**Answer:** B,C

**NO.5** Why would you set up a cascading filter in the planning view? Note: There are 2 correct answers to this question.

- A. To filter using attributes that have a large number of values
- B. To filter attributes based on specific values
- C. To filter data in an Application Job template
- D. To filter attributes based on other attribute filters

**Answer:** A,B

**NO.6** You created a key figure and want to add calculations. Which of the following rules do you

consider?Note:

There are 2 correct answers to this question.

- A.** All key figure calculations have calculation inputs, which can be marked as stored or calculated.
- B.** The calculation chain for a key figure must always result in a calculated key figure.
- C.** Key figures can be calculated across different planning levels.
- D.** Aggregation calculations using SUM or MAX functions must be based on a higher aggregation level.

**Answer:** A,C

**NO.7** You are adding a value-based filter to a planning view.Which of the following conditions apply?Note: There are 3 correct answers to this question.

- A.** You can only apply one value-based filter per planning view.
- B.** These filters can be used together with attribute totals in the same planning view.
- C.** You can add (or delete) planning objects to a planning view after these filters are applied.
- D.** These filters are always applied based on the values stored in the database.
- E.** The alerts dashboard is not available if a value-based filter is set for the open planning view.

**Answer:** A,D,E

**NO.8** The S&OP Operator Profiles app is used to configure different types of algorithms.Which algorithm-specific settings are unique for only the Time Series-based Supply Optimizer?Note: There are 2 correct answers to this question.

- A.** Discretization
- B.** Time profile level
- C.** Processing mode
- D.** Global cost factors

**Answer:** C,D
